- Less than 10 pre-weighed Cold Oat Matcha portions left
- Matcha Cream pitcher below $\frac{1}{4}$ full (D will swap from cooler)
- Earl Grey Syrup squeeze bottle below $\frac{1}{4}$ full
- Sugar Syrup or Pandan bottle below $\frac{1}{4}$ full
- Pandan leaves: less than 20 left at station
- Vita Coco cartons: less than 2 backup at your station

FINISHER & STOCK WATCHER

Matchanese x VitaCoco Pop-Up — Dose Card

TAPE TO YOUR BENCH

Pours top → bottom in order shown

EVERY FLIGHT

- Receive Cup 4 from B → sprinkle 5 g Latik Bits with slotted spoon
- Place all 4 cups into carrier (order: 1, 2, 3, 4 left to right)
- Quick QC: each cup filled to line? foam intact? pandan leaf upright?
- Hand carrier to A (or directly to customer if A is busy)
- Wipe carrier handle if syrup dripped

EVERY ~6 FLIGHTS

- Pre-froth next Matcha Cream pitcher (~150 g) for C
- Restock Latik Bits 5 g cups at your station (10 cups ready)
- Bring next batch of 12 g matcha portions from cooler

DURING RUSH (HELP A)

- If queue > 5 people: take orders from end of line
- Call out flight numbers as carriers go out
- Let A focus on payment, you focus on order intake

EVERY 10–15 MIN — STOCK WALK

- Check B & C syrup squeeze bottles — refill if below $\frac{1}{4}$
- Check Vita Coco cartons at each station — top up to 3 backup
- Check hot water airpot at B — refill from kettle if low
- Check ice levels in cooler — replenish from backup ice
- Count remaining cups & carriers at front — restock from under booth

EVERY 2 HRS — DEEP REFILL

- Re-boil kettle, swap out airpot for fresh hot water
- Swap Coconut Cold Brew pitcher (stir → fresh from cooler)
- Swap Matcha Cream pitcher (shake → fresh from cooler)
- Recharge Latik Foam whip if dispense is weak
- Trash check: empty bins, replace liners

RED FLAGS — STOP & ALERT

- Any pitcher running OUT (not just low) → call commissary
- Whip dispenser won't dispense → switch to backup, troubleshoot off-line
- Matcha tastes bitter / off → swap pitcher, taste before serving
- Cup leak / spillage on counter → wipe before next flight

ALERT — CALL COMMISSARY / SUPPLY RUN IF:

- Vita Coco backup case below 5 cartons → call commissary
- Cup sleeves: less than 2 sleeves remaining (100 cups)
- Carriers: less than 1 pack remaining (100 carriers)
- Ice running low — cooler not maintaining chill
- Any commissary-prepped sub-recipe (syrups, foam base, cold brew) below 1 pitcher in cooler
